EXPERIMENT 1

Car Booking Reservation System Using Zoho One (SaaS)

Aim

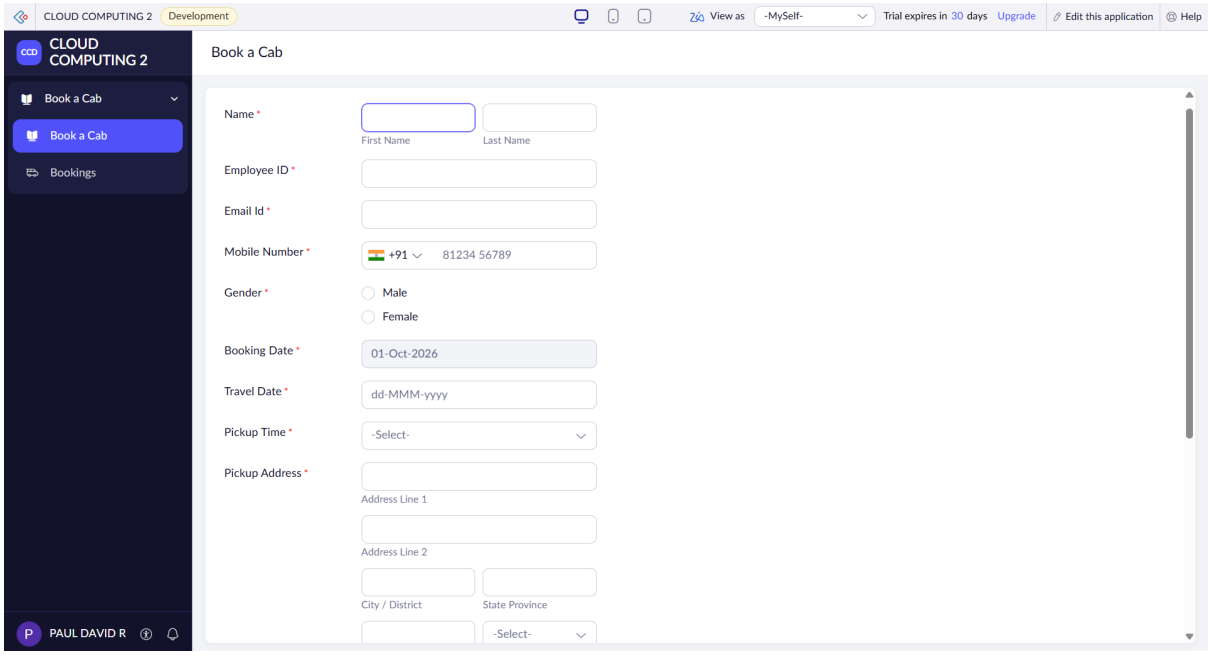

To create a Car Booking Reservation System using Zoho One as a cloud-based Software as a Service (SaaS) application.

Steps / Procedure

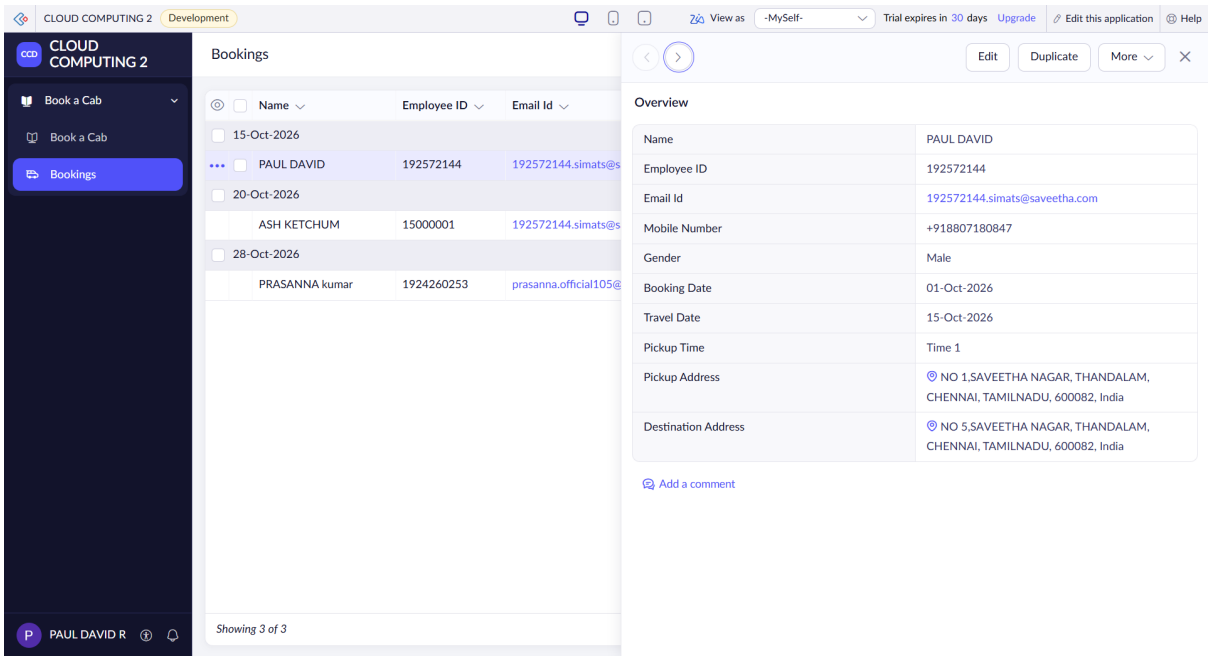

1. Sign in to the Zoho One cloud platform.
2. Launch Zoho Creator from the available Zoho One applications.
3. Create a new application for the Car Booking Reservation System.
4. Add a new form titled Car Booking Reservation.
5. Include the required fields: From, To, Rental, Outstation, Package Type, and Hours/Days.
6. Assign suitable field types based on the information to be entered.
7. Arrange and format the form for simple and convenient user interaction.
8. Save the completed form and publish it.
9. Enter sample cab booking information into the form.
10. Submit the booking and check that the entered information is stored in the cloud.
11. Test the application with different booking details to confirm proper operation.
12. Verify that the Car Booking Reservation System functions successfully as a SaaS application.

Implementation

Input:

Output:

Result

Thus, a Car Booking Reservation System was successfully created using Zoho One and demonstrated as a Software as a Service (SaaS) application.
