EXPERIMENT 8 – STUDENT COUNSELLING SYSTEM

Aim

To create a simple cloud-based web application for a Student Counselling System using Zoho Creator and demonstrate the Software as a Service (SaaS) model.

Requirements

- Zoho Creator
- Web browser
- Internet connection

Procedure

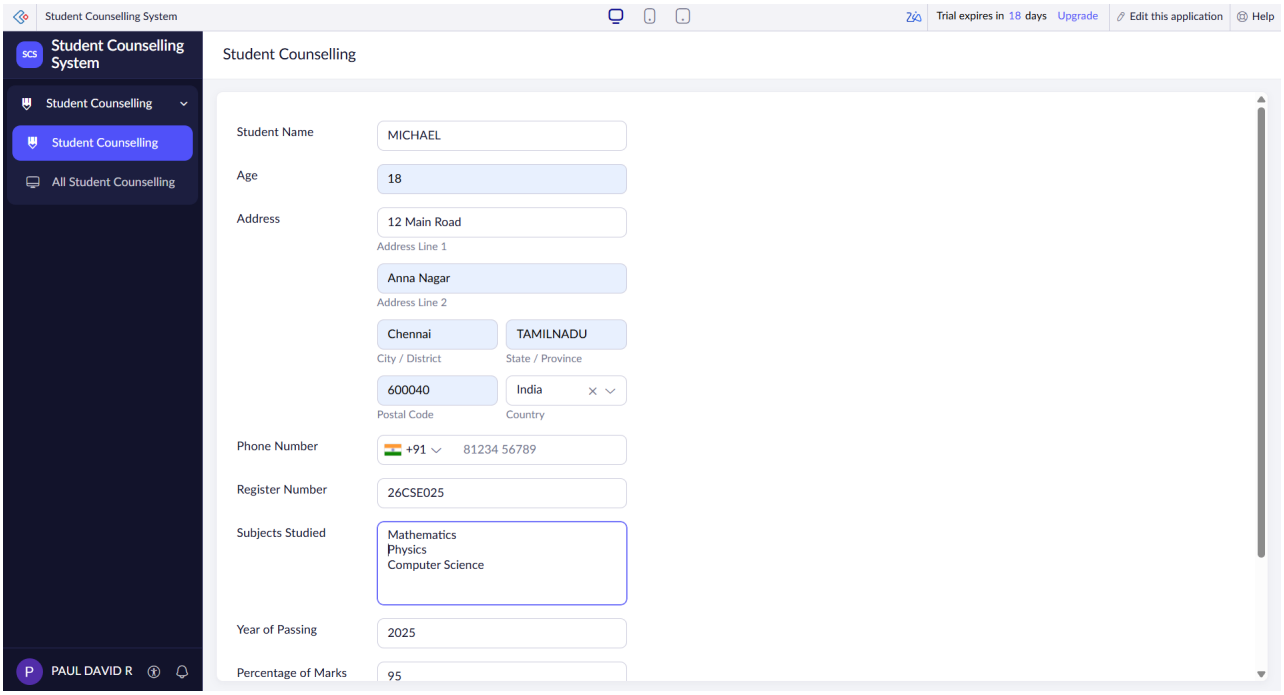

1. Open Zoho Creator and create an application named Student Counselling System.
2. Create a form titled Student Counselling to collect student, academic, and counselling details.
3. Add the fields Student Name, Age, Address, Phone Number, Register Number, Subjects Studied, Year of Passing, Percentage of Marks, and Domain Interest.
4. Assign appropriate field types, including Name, Number, Address, Phone, Single Line, Multi Line, and Dropdown.
5. Set up Domain Interest choices such as Engineering, Medicine, Arts and Science, Management, Information Technology, and Other.
6. Save the form and open the live application for testing.
7. Enter the sample student's personal details and academic information.
8. Submit the form to save the student record.
9. Open All Student Counselling and inspect the saved record to confirm the information.

Sample Input

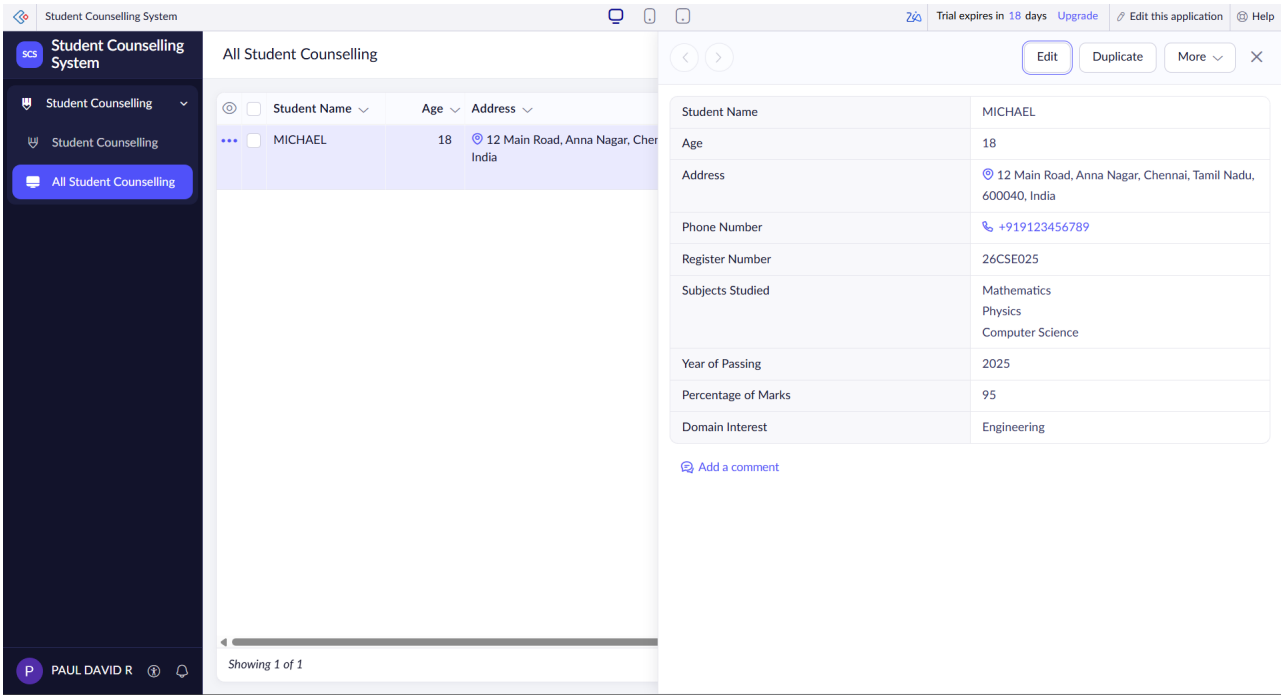

- Student Name: MICHAEL
- Age: 18
- Address: 12 Main Road, Anna Nagar, Chennai, Tamil Nadu, 600040, India
- Phone Number: +91 9123456789
- Register Number: 26CSE025
- Subjects Studied: Mathematics, Physics, Computer Science
- Year of Passing: 2025
- Percentage of Marks: 95
- Domain Interest: Engineering

Implementation Screenshots

Input Form

Output – Saved Student Record

Result

Thus, the Student Counselling System was developed successfully in Zoho Creator. The form accepted a sample student's personal and academic details, stored the record, and displayed the saved information in the application.
